**Subject: A21472 Plus VaporGrip Technology: EPA Registration No. 100-1623  
(ABN: Tavium® Plus VaporGrip® Technology)  
Non-PRIA Fast Track Amendment to Implement Regional Measures  
for 2023 Growing Season  
Syngenta Veeva Tracking Number: AD120878**

Dear Ms. Schmid:

Syngenta Crop Protection, LLC is submitting a proposed fast track amendment for the 2023 application season for over-the-top applications of Tavium® Plus VaporGrip® Technology (EPA Reg. No. 100-1623). Please note that Tavium Plus VaporGrip Technology is an alternate brand name for A21472 PlusVaporGrip Technology and will be herein referred as "Tavium". The changes proposed in this amendment are related to the submission on January 13, 2023. The state specific restrictions for Arkansas (AR) are being eliminated from the label.

On January 26, 2023, the Interim Decision and Biological Opinion label edits for S-metolachlor were accepted. The previous version of the label had these edits highlighted to make the reviewer aware that they were still pending. The highlighting has now been removed.

Enclosed in support of this amendment are the following documents electronically submitted:

- Cover letter
- Application for Pesticide Registration (EPA Form 8570-1)
- Amended Master Label with changes highlighted
- Amended Master Label (clean copy)

#### **Fees for Services**

Syngenta believes this submission qualifies as a Non-PRIA fast track amendment.

Thank you for your time and attention. If there are any questions regarding this submission, please contact me at [rachel.hardie@syngenta.com](mailto:rachel.hardie@syngenta.com), or 302-373-5243 (alternatively, you may contact my regulatory operations specialist Pat Eay at 336-632-6746 or [pat.eay@syngenta.com](mailto:pat.eay@syngenta.com)).

Sincerely,

Rachel L Hardie  
Regulatory Product Manager  
Syngenta Crop Protection LLC
